### ABOUT

Vince Molinari is one of finance's most recognizable voices globally — a licensed securities professional since the early 1990s who began his career at **Lehman Brothers** and has spent three decades building companies at the frontier of capital markets.

He pioneered the **first FINRA-approved broker-dealer and ATS for digital securities in U.S. history** through Templum, Inc., testified before the **U.S. House Committee on Financial Services**, and authored regulatory comment letters to the SEC and FINRA.

In 2019, he co-founded **FINTECH.TV** — now operating from one of only five permanent studios ever built on the floor of the New York Stock Exchange, with additional studios at NASDAQ, LSEG (London), and ADGM (Abu Dhabi). The flagship *Digital Asset Report* has surpassed **4 million viewers** worldwide.

### SPEAKER TOPICS

- **The Future of Capital Markets & Digital Asset Regulation**  
From the JOBS Act to stablecoins to tokenized securities — navigating the regulatory frontier.
- **Tokenization of Real-World Assets**  
How blockchain is unlocking liquidity in private markets and reshaping global capital formation.
- **AI, Fintech & the Future of Financial Services**  
The convergence of artificial intelligence and digital infrastructure across world markets.
- **Impact Investing & the UN Sustainable Development Goals**  
Aligning capital with humanity's most urgent challenges through blockchain-backed solutions.
- **The Middle East as the New Capital of Capital**  
Inside Abu Dhabi's rise — ADGM, ADFW, and the \$70T asset migration reshaping global finance.
- **Building a Global Media Brand in Financial Markets**  
How FINTECH.TV became the only independent studio on the NYSE floor — and what it signals.

### SELECTED CAREER HIGHLIGHTS

- **Founder & CEO, FINTECH.TV** — NYSE · NASDAQ · LSEG · ADGM studios
